A teacher, scientist, author, revolutionary intellectual, and winner of the 1976 Nobel Prize in economics, Milton Friedman is considered one of the greatest proponents of individual freedom and individual choice.

Milton Friedman served as economic advisor for two American Presidents – Richard Nixon and Ronald Reagan. Although Friedman was inevitably drawn into the national political spotlight, he never held public office.

Dr. Friedman gives a speech at the 1976 Nobel ceremony.

Dr. Friedman and his wife, Rose, attend the Nobel Ball in 1976.

Milton and Rose Friedman, seen here in Tiananmen Square, were partners for sixty-eight years. As Rose says, “two partners, one career.”

An ever-combative champion of freedom, Milton Friedman’s career and contributions in defense of individual liberty are unique in our time.
